Testimony and Mission

John 4:27-43

The disciples have not been in the story until this point. As they return to the well, the woman returns to the town. The disciples are stunned that Jesus would talk to a Samaritan woman. The woman is stunned that the Messiah would speak to her. This moved her to such a great extent that her immediate reaction was to share her testimony and invite the town to come and see the Messiah. As she witnesses to the people in the town, Jesus explains the urgency of the gospel mission to the disciples.
